## Junior Development Program

### **Beginner Junior Program**

**Target Group:** Ages 4-10

**Max Group Size:** 12

The Beginner Junior golf program focuses on developing fundamental movement skills for our young golfers. The program is made up of several stations that focus on specific skill sets helping develop speed, hand eye coordination and promoting athletic development. The program is designed to help lay the foundation of continued growth in the game of golf and beyond while promoting a fun environment. This is a wonderful way to introduce your young golfer to the game.

### **Intermediate Junior Program**

**Target Group:** Ages 9-14

**Max Group Size:** 12

The Intermediate Program will start to implement golf specific training. The sessions will focus on all aspects of the game, from long game to the scoring game. Juniors will get time to hit golf balls both in block practice (specific skill development) and random practice (random targets and skill implementation). This program is designed to bridge our beginner junior golfers into the advance junior program/competitive golf.
